# Customer Reviews

“

A learning experience in EduCBA is excellent and have been very helpful in updating the courses with the best practices in the industry. This course on Android App Development using Android version 6. By the end of this Android Marshmallow Tutorial, you will be able to design and code own android applications for the clients and for own business entrepreneur. I highly recommend this course. this course helps to know about the development of marshmallow and also working with new animations and enhanced graphics.

Zubin Mathew

”

This Android Marshmallow Tutorial taught me the fundamental concept of Android programming initially which helped me immensely to work with the latest update of Android M and made me enter into a good job as an Android developer. The app which I was trained as a part of the course gave hands to build apps and deploy them to google play store. All the queries are resolved promptly by the trainers.!
