Customer Reviews

“

The course is organized very well with a clear and concise explanation of each and every component of Solr. Every concept has been explained with easy practical implementation. This tutorial is a must if you plan on getting some real time practice on Solr.

Sneha Rao

”

This course was very good and informative. I learned new skills and new software terminologies. I learned about the tool and its importance. The video was very good. The instructor was good and knowledgeable. Quality of the videos was nice and I will surely recommend this course to anyone who wants to learn app development.

Francisco Gil

”

Nice and simple explanation, The tutor also has in-depth knowledge of Solr functionalities and explains very clearly the process and usage. Good and will recommend the same to others and also explained well how Solr got its name which many other online tutors did not explain.
