This Bundle perfectly meets the requisite of the industry and gives you a better chance of being hired as a CloverETL Learning professional.

# 1

## CloverETL Data Integration

---

### Section 1. Introduction

- Introduction in Clover ETL
- Data Analysis
- ETL Data Structure

### Section 2. CloverETL Components

- Example of ETL Data Structure
- ETL Designer Tool

### Section 3. CloverETL components and Examples

- Converting Basic File Conversion Example
- Creating Metadata Clover ETL Components
- Json Processing in Clover ETL
- Example of Json Processing in Clover ETL
- Example of Mapping in Clover ETL
- Working with XML File In Clover ETL
- XML Extracting in Clover ETL

# 2

## CloverETL Data Integration -Advanced Case Studies

---

### Section 1. Introduction

- Introduction to Credit Card Fraud Detection(CCFD) in Clover ETL

### Section 2. CCFD

- Flow Chart Duagram of CCFD
- Metadata Editing in CCFD
- Creating a Common Dataset in CCFD
- Working on XML File of CCFD

# Frequently Asked Questions

---

Why should we learn CloverETL?

CloverETL is the tool based on the modern approach to work with data in order to make them ready for the processing. Once can learn CloverETL as it helps to solve the complex business problems that need data processing. It makes one able to work with a significant sum of data. We can perform data integration and data transformation using this tool.

How long it may take to learn CloverETL?

The answer to this question is based on how closely you have worked with the heterogeneous data. If you at the beginner level in terms of relation with data than it may take you around one and half months to two months while if you have expertise level in this, you may end up with learning this within a month.

Which are the top companies that offer jobs in CloverETL?

Most of the IT companies these days have a huge requirement for the professional who has hands-on experience of working with data. One with knowledge of CloverETL can be selected by various IT companies, but when we talk about the name of the companies, they are Amazon, Facebook, Infosys and so on.

# Customer Reviews

“

It was a great course!!! the videos are comprehensive. Examples are amply explained, the videos covering all the basic prerequisites to either learn or brush up on CloverETL. There are two other courses, I'm about to attend, would surely recommend educba!

Sameer Panda

”

I learn a lot about the CloverETL especially the basics one..its good for the beginners. It was precise and easy to learn, you can understand the way they teach in English. The lectures are very great and its worth it to pay for the same..great work educba you save me a lot in learning the tool and its basics function. one more thing is that the video plays well & the quality of videos are good.

Eduard Duffy

”

This was a good course for the beginner up to expert – was able to follow along in several parts.The training was split into a good size and easy to follow. Also found the material very usable in small in a short period of time. Would be nice to have a system to follow with as they work. Also, like the selection of courses.
