# About jQuery

jQuery is a JS (JavaScript) library which is used widely for the HTML DOM manipulation and its traversal.

It was purely written in the JavaScript language.

jQuery can be installed either through local installation or using CDN (Content Delivery Network) mode.

jQuery is one of the most deployed libraries in JavaScript for the purpose of web applications development.

# jQuery Course

This is a Bundle Course that includes complete in-depth JQuery Learning Courses combined into one Complete Course.

This Bundle perfectly meets the requisite of the industry and gives you a better chance of being hired as a JQuery Learning professional.

# 1

# jQuery UI Tutorials

---

## Section 1. Introduction

- Introduction to JQuery
- Development Environment Setup in JQuery

## Section 2. Environment Setup

- Download Builder in JQuery
- CDN Reference in JQuery

## Section 3. Testing and Debugging

- Plunker Testing
- Debugger Tool

## Section 4. Accordion

- What is Widgets
- Code Structure of According
- CSS Attribute
- Get Aliments
- Remove CSS and Scripts
- Accordion Creation Techniques

## Section 5. Spinner

- Introduction to Spinner
- Spinner Widgets
- Spinner Methods

# 2

## jQuery Fundamentals – The Ultimate jQuery

---

### Section 1. jQuery Write Less Do More

- First page Introduction
- JQUERY Introduction

### Section 2. jQuery Benefits

- jQuery Benefits

### Section 3. jQuery Installation

- Downloading JQuery From JQuery Website
- Referring To JQuery File Through Content Delivery Network

### Section 4. jQuery Demo App

- Setting Up JQuery In An Html Document
- JQuery Demo App

### Section 5. jQuery Selectors jQuery Basic Selectors

- JQuery Selectors Intro Basic Selectors Explanation
- JQuery Basic Selectors Example Part 1
- JQuery Basic Selectors Example Part 2

### Section 6. jQuery Attribute Selectors

- Attribute Selectors Description
- JQuery Attribute Selectors ExamplePart 1
- JQuery Attribute Selectors ExamplePart 2

### Section 7. jQuery Basic Filters

- Basic Filters Description
- Basic Filters Example Part 1
- Basic Filters Example Part 2
- Basic Filters Example Part 3

# 3

## jQuery Fundamentals – The Ultimate jQuery

---

### Section 1. jQuery Child Filters

- Child Filter Description
- Child Filter Examples

### Section 2. jQuery Content Filters

- Content Filters Description
- Content Filters Example

### Section 3. jQuery Form Selectors

- Form Selectors Description
- Form Selectors Examples

### Section 4. jQuery Hierarchy Selectors

- Hierarchy Selectors Description
- Hierarchy Selectors Examples

### Section 5. jQuery Visibility Filters

- Visibility Filters Description  
with Example

### Section 6. JQueryTraversal Intro and Ancestor Element

- JQuery Traversal Intro and  
Ancestor Element Description
- Descendant traversal  
description
- Ancestor Examples

# 4

## DOM Manipulation

---

### Section 1. JQuery Traversal

- Descendant traversal
- Siblings Traversal Description
- Siblings Traversal Example
- Filtering Traversal Description

### Section 2. JQuery DOM Manipulation

- JQuery DOM Manipulation Introduction and Class attribute Description
- Class Attribute Manipulation

### Section 3. Dom Manipulation - Dom Insertion

- DOM Insertion

### Section 4. DOM Insertion Example

- DOM Insertion

# 4

## DOM Manipulation

---

### Section 5. Dom Manipulation - Dom Removal And Replacement Method

- DOM Removal and Replacement

### Section 6. Dom Manipulation - General Attribute

- General Attributes Description
- General Attributes Example

### Section 7. Dom Manipulation - Style Attributes

- Style attribute methods

# 5

# Events

---

## Section 1. Key Board Events

- Keyboard Events Introduction Description
- Keyboard Events Introduction Examples

## Section 2. Mouse Events

- Mouse Events Description

## Section 3. Form Events

- Form Events Description
- Form Events

## Section 4. Browser Events

- Browser Events Description
- Browser Events Example

## Section 5. Dom Load Events

- DOM Load Events Description

## Section 6. Attaching Event Handler

- Attaching Event Handlers Description

# 6

## Advanced jQuery Effects, Module, Animation

---

### Section 1. Basic Effects Introduction

- Basic Effects Introduction Description
- Basic Effects Introduction Example

### Section 2. Custom Effects

- Custom Effects Description
- Custom Effects Example

### Section 3. Fading Effects

- Fading Effects Description
- Fading Effects Example

### Section 4. Sliding Effects

#### Description

- Sliding Effects Description
- Sliding Effects Example

# 7

## Advanced jQuery Effects, Module, Animation

---

### Section 1. Simple Ajax

- Simple Ajax Description
- Simple Methods Example

### Section 2. Global Ajax Event

#### Method

- Global Ajax Event Method Description
- Global Ajax Event Method Examples

### Section 3. Helper Functions

- Helper Functions Description
- Helper Functions Example

### Section 4. Slidng Effects

#### Description

- Slidng Effects Description
- Slidng Effects Example

### Section 5. Level Interface

- Low Level Interface Description
- Low Level Interface Examples

### Section 6. Collection Manipulation Data Storage

- Collection Manipulation Data Storage Description
- DOM Element Setup Method Example
- Collection Manipulation Data Storage

### Section 7. Dom Element Setup Method

- Dom Element Setup Method Description
- Dom Element Setup Method Example

### Section 8. JQuery Conclusion

- JQuery Conclusion

## Section 1. JQ Mobile Intro

- JQuery Mobile Intro and Table Of Content Screen1
- JQuery Mobile Concept Detailing screen

## Section 2. JQ Mobile Pages

- JQuery Mobile Topics pages, multiple, dialogs and transition effects recording

## Section 3. JQ Mobile Buttons

- JQuery Mobile Topics buttons, icons, pop-ups and toolbar

## Section 4. JQ Mobile Navigation bar and panels

- JQuery Mobile Topics Navigation Bar and Panels part 1
- JQuery Mobile Topics Navigation Bar and Panels part 2

## Section 5. JQ Mobile Tables and Grids

- JQuery Mobile Topics Tables and Grid
- JQuery Mobile Topics List Views

## Section 6. JQ Mobile Forms, themes, events

- JQuery Mobile Topic Form Elements
- JQuery Mobile Themes
- JQuery Mobile Topic Events
- Query Mobile Topic Examples and Basic Query Mobile Temple

# Frequently Asked Questions

---

Why should I choose this jQuery course?

Any UI Developer or JavaScript Developer or Front-End Engineer working on the web apps development or UI based apps development and are willing to learn jQuery core concepts and advanced concepts should choose this jQuery course training.

Is this a quick-fix to clear interview or do I still need to practice continuously while learning this jQuery course training?

Yes, this is really a quick-fix without any previous knowledge or experience in computers or JavaScript or HTML DOM or AJAX or jQuery but any jQuery library components or knowledge of AJAX is highly benefited and added advantage. This jQuery course needs a minimum of 18+ hours to be spent in order to complete it.

Would this course add value to my profession?

Yes. this course would definitely add some value to the learners' profile and also verifiable certifications including valuable jQuery concepts.

# Customer Reviews

“

This jQuery course is the best course for jQuery library concepts in the area of UI web application development. This course has a very good comprehensive concepts content which were explained clearly and avoids confusion in complex topics such as Event Handling, DOM manipulation. This course is a very good and encouraging one for the learners of this course.

Henry

”

jQuery course is really a good course as its content and matter was organized in a simple manner to be able to understood by the learner easily. The jQuery library concepts and components were explained in an easier way in the form of videos.

Sushil
